

Zempat™

the latest in Intelligent Farming

Zempat is the first universal remote telemetry unit truly designed to handle multiple aspects of your farming. Acting like a 24/7 dedicated watchman, the Zempat constantly monitors your operation to keep you informed and up-to-date. Combined with FieldWise's sophisticated, yet simple Web Portal you can configure your operation to meet your needs. The Web Portal gives you full access to your operation with real-time alerts sent to your cell phone or email. If you are on the go, you can use our mobile version of the web portal, which puts your operation right at your fingertips.

Choosing is simple, just like FieldWise. We offer cutting-edge technology at an affordable price along with superior customer service. Turn this page over to see what our customers have to say about our products and service.

Farming Made Simple.

"I used FieldWise technology in 2010. It has been a real time and money saver. Before this came along I was driving 40+ miles a day to check all pivots once. Now this can be accomplished from the office or mobile device. This year I have added features to make the system even more efficient. I can generate daily and year end reports for water and time usage also. Timers are a thing of the past as is startup in the dark. Lastly, the support has been exceptional."

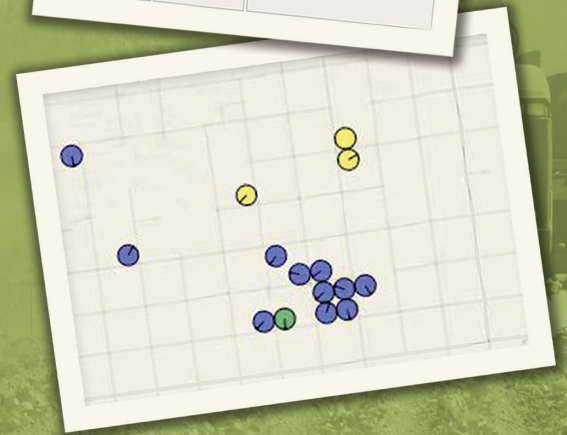

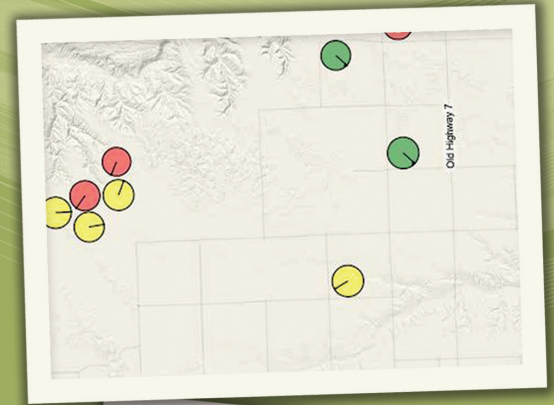

Dan Gansebom, Osmond, Nebraska

"The FieldWise system worked very well for our farms. One of the biggest improvements over the system we were using is the automatic shut off when it rains - saves us a lot of time and labor. We found the system to be reliable and trouble free. Access to FieldWise representatives to answer questions was just great - response times were prompt and the staff is very knowledgeable about the program. No waiting around for the right person to be in the office. The web site is user friendly too!"

Mike and Deb Kelly, O'Neill, Nebraska

"FieldWise gave me the ability to monitor and control my entire operation without having to step foot out the door. It is great not having to schedule the day around checking pivots. I receive up to the minute text alerts whenever a pivots status has changed. This makes for limited downtime and more time to accomplish other tasks throughout the day, not to mention the amount of fuel and time I can save as well. FieldWise has excellent customer service. They are responsive even after business hours, which is an added benefit!"

Jim Arens, Ainsworth, Nebraska
